

# Who Funds MS13?

-Who funds MS13?

(George Soros Open Society Foundation through Southern Poverty Law Center SPLC &

Bill & Melinda Gates through their Care foundation, which funds Casa del Migrante and gives the MS-13 and Caravan supplies along the migration route to the US border.)

-Why did BO instruct HS & BP to release MS13 captures at the border?

(In 2014, President Obama “knowingly” let in MS-13 gang members. A whistleblower submitted Border Patrol documents outlining the 16 gang members involved that were unaccompanied minors UAC

MS-13 gang members can be hired as hitmen. Open borders also means overtaxed system and possible collapse of current set up to make way for socialist set up.

MS-13 is designated a transnational criminal organization by the Treasury Department, it was originally formed in the 1980's in Los Angeles under the name "Mara Salvatrucha")

-What agency has direct ties to (2) major drug cartels?

(Pakistan ISI is connected to 3 major drug trafficking routes into Afghanistan's opium rich Golden Crescent. Drug Cartels such as Sikh terror group and the Taliban which is the largest which sources 85% of the world's opium and heroin as well as methamphetamine. ISIS is another terrorist group that have switched into the drug trade that are connected to the ISI. Drug routes to Europe, Central Asia and Russia are also used as well as Sri Lankan Sea routes They use the money to finance their terrorist groups and force their ideologies.

-Why is AG Sessions / POTUS prioritizing the removal of MS13?

(President Trump built a wall to protect our southern border with Mexico, to stop trafficking of guns, drugs and humans and to stop gangs and terrorists. He had "tough on crime" policies and wanted to take down those international criminal organizations. Attorney General Sessions swore to aggressively support President Trump's plan to take on international criminal organizations, cartels and gangs. The caravans include MS-13, ISIS, terrorists, drug cartel members and traffickers, that come through the borders because of loopholes in laws. MS-13 is based mostly out of El Salvador, Honduras, Guatemala, and Mexico. Hundreds have been convicted of drugs and murders as well as federal racketeering charges.

In February 2021, Resident Joe Biden signed 3 Executive Orders EO on reversing President Trump's policies. He ended the "zero tolerance" on prosecuting illegal border crossings and to see unification of children and parents at the border. He also signed one that reviewed all Trump-era immigration policies. Vice Resident Kamala Harris was appointed Border Czar by Biden. In September of 2021, Resident Joe Biden's administration's policies created a 17,000+ Haitian immigrant border influx in del Rio Tx, a back log for people waiting to get into the country. This was due to Covid 19 vaccine mandates and relaxed immigration policies.

The Homeland Security Director and Vice President Kamala Harris are advising the media that the border is closed, which is not the case, it is still open and illegal immigrants are flooding in. Border Patrol has been ordered to stand down and allow this. Over 17,000 illegal immigrants were removed from out under the Del Rio bridge and 10-12,000 have been released and will stay in the US. The others are being processed and may be released to stay in the US as well. A deliberate invasion is being orchestrated here. Fox News was prevented from showing drone footage of the immigrant camp under the bridge, which then made Biden look bad, so only then did he allow Border Patrol to stop the flood of immigrants coming in through the Rio Grande. Border Patrol was using men on horseback to disperse the crowds and the horse reigns were mistakenly viewed as horse whips. This caused a social media meltdown, and the Border Patrol agents were removed from duty by Biden, leaving the border even more exposed. Biden continued to use the horse incident to inflame the situation against Border Patrol. BP now faces termination for refusing the Covid-19 vaccine by November at the same time allowing illegals to flow in through the border with no mandate for vaccinations on them, they are not even tested for Covid.

Weather Modification to create global warming narrative, disasters to get emergency funding for their “projects”. Storms to hide missile attacks. Climate change is an illusion, it is caused by weather modification systems like High Frequency Active Auroral Research Program HAARP. Scientists created Geoengineering it to “combat” climate change by manipulating and removing carbon dioxide from the atmosphere. HAARP claims to be investigating the ionosphere. UAF's Brian Rogers and Dr. [BOB] McCoy, Director, Geophysical Institute, transferring the powerful upper-atmosphere research facility from the military to the university.

\*\*This also has a multiple meaning of removing the Mainstream Media MSM through the use of cyber and information warfare.

-Why is AG Sessions / POTUS prioritizing building the wall?

President Trump has spent \$5.5 trillion dollars in funding for the southern border wall with Mexico, infrastructure was included in the 2017 Tax Cuts and Reform Act for (FY2019) and the US Army Corp of Engineers built the wall. This was planned in advance using the Constitution and matters of National Security, to bypass any plan for open borders, the elimination of ICE, Border Patrol and defending illegals over

Americans. Attorney General Sessions supports the need for a wall as it will create better border reinforcement and deportments will be quicker. As of January 2021, 400 miles of border wall has been built and illegal crossings were down 87%.

In 2021, President Biden canceled border wall construction that used military funds this includes any overseas projects like schools, partner nation projects and National Guard equipment. The money will now be reverted back to other military projects. Biden felt Trump was misusing the funds by shortchanging our military and security and diverting attention away from human traffickers. However, President Trump built up a very strong and robust military during his administration as well as an excellent record on busting up human trafficking which included an executive order on the issue. All this while Biden is faced with a National Emergency from Governor Doug Ducey of Arizona and a lawsuit from Arizona's Attorney General Mark Brnovich regarding Bidens reversal of Trump's policies at the border creating the border crisis.

As of Sept 2021, Welcome Us is now coordinating Afghan refugees into the US. George Soros Open Society is funding Welcome Us (WU). Co-Chairs of WU include Globalists Barack Obama, George W Bush, Michelle Obama, Laura Bush, Bill Clinton and Hillary Clinton. Other sponsors include the New York Times, Rockefeller Brothers Fund, Microsoft, the US Chamber of Commerce Foundation and others. We have an overtaxed immigration system as is, but these migrants increase the Democrat voter base and 63% of non-citizens are already on our overburdened welfare system .This may lead to a collapse of the existing government welfare system and allow for a national social system where a redistribution of wealth would support it. Whoever gets elected controls the borders.)

Mike Lindell has provided tons of documented evidence of Voter Fraud starting in Maricopa County AZ, in a Documentary called 'Absolute Proof' and presented it multiple times for the American public. Tampered with Dominion voting machines, cyber intrusions mostly from China on election night, phony paper ballots, dead voters and voter intimidation just to name a few. Dominion and Smartmatic machines have connections to George Soros.

September 25, 2021, the Maricopa County 2020 Election audit results were released, the audit included 1500 volunteers. Over 2.1 Million ballots were hand processed and over 57,000 ballots may be legally in question which is more the 5x the amount the

Biden supposedly won by which was 10,457. Karen Fann, the Arizona Senate president claims the audit received unnecessary obstruction from Maricopa County by going to court and the use of subpoenas. The audit uncovered significant evidence of broken statutes and personnel not following chain of custody. Election systems, record keeping, signature verification match and voter roll issues need improvement and investigation. Because Maricopa County officials refused to cooperate it was impossible to complete the audit.

It was led by Cyber Ninjas Doug Logan and Ben Cotton as well as an independent team including assistance from Dr Shiva Ayyadurai for audit analysis, Randy Pullen and Ken Bennet presented election laws. Senator Peterson identified critical issues encountered while obtaining the audit including audit obstruction, the numbers don't add up, "It appears they broke the law with duplicate ballots", people need to be held accountable for mistakes, chain of custody issues, data files were not preserved, weakness in Cyber Security and missing signatures on envelopes. The routers, Splunk data and Netflow data were never given to the auditors for review, this would have shown internet traffic which was not allowed. The actual recount in the audit showed Joe Biden won by 994 votes but also showed a multitude of evidence that fraud was committed.

Mail in ballot issues:

Mail-in Ballots Voted from Prior Address 23,344; More Ballots Returned by Voter Than Received 9,041; Potential Voters that Voted in Multiple Counties 5295; Official Results Does Not Match Who Voted 3,432; More Duplicates Than Original Ballots 2,592; In-Person Voters Who Had Moved out of Maricopa County 2,382; Voters Moved Out-of-State During 29-Day Period Proceeding Election 2,081

Maricopa had originally refused to do a canvass, which would show the number of votes cast should not exceed the number of voters. The ballot delta is currently 11,592. A Canvass was run by citizens and led by Liz Harris during the audit instead. On its Canvass report, Maricopa had not counted any duplicate ballots. Another Canvass could validate findings even further as well as an investigation by the Attorney General. As of Sep 26, 2021, 41 legislators from various states wrote a letters calling on a 50-state audit.

There were 29,557 duplicate ballots and 26, 965 were sent for duplication, leaving 2,592 more duplicate ballots counted then sent. When attempting to resolve discrepancies the audit team was met with resistance by Maricopa County.

Unidentified and misidentified ballot batches were supplied which draws questions to signature verification verifiability. Dr Shiva found 17,322 duplicates in which some cast 3- and 4-times mail in ballot signatures, 25% were received after the election.

Other ballot anomalies:

Received without Record of Being Sent 397; Voters With Incomplete Names 393; Deceased Voters 282; Late Registered Voters with Counted Votes 198; Double Scanned & Counted Ballots 50; UOCAVA

The audit results show that over 1 million files were missing, and 284,412 ballot images corrupt from the Election Management Server EMS and logs were cleared. Maricopa County disputed that this happened. There were statutes being broken and chain of custody issues regarding ballots and they were not always delineated, or they had missing serial numbers, these will all need to be investigated. Computer and cyber security protocols were not followed like patch and credential management, best practices by Cyber & Infrastructure Security Agency CISA were ignored as well. Counties should always be able to be in control of their administrator passwords for voting machines to maintain monitoring and integrity. Fake paper was used in 100% of the ballots instead of VoteSecure stock when asked to research paper, ink, toner and ballot formats further, Maricopa County blocked the request.

74,243 more ballots were received then sent out, 11,326 didn't show up on election but did show up on Dec 4, 2020. 3981 voted but registered after Oct 15, which would disqualify them from voting in 2020 election. An estimate of 57,000 votes with improper voter discrepancies voter registration were found. This type of fraud could invalidate the election and should be criminally investigated. Also, a Kinematic Artifact processing is checking the ballot images and will fully map all printer miscalculations and have a report available shortly.

Additional audit tallies:

Votes Counted in Excess of Voters Who Voted 1551; Voters not part of the Official Precinct Register 618; Ballots Returned Not in the Final Voted File 430; Duplicated Ballots Incorrect & Missing Serial Numbers 500; Mail-In Ballot Audit UOCAVA Count Does Not Match the EAC Count 226; Date of Registration Changes to Earlier Date 194; Duplicate Voter IDs 186; Multiple Voters Linked by AFFSEQ 101; UOCAVA Electronic Ballots Double Counted 6; Duplicate Ballots Reuse Serial Numbers 6; Individuals voted in more than one county 5,047, for up to 5,295 additional votes; Voters cast ballots using incomplete names 393; Individuals who registered after the Oct. 15

deadline voted anyway 198; Voters shared a registration number with another voter 2,861; Votes appeared to be cast in the names of dead voters 282; Voters appeared to have duplicate voter IDs, both of which were presented at separate times 186.

The Democrats have a history of cheating in elections. A Philadelphia Judge of Elections, Domenik DeMuro, was caught adding votes for Democrats in the 39th Ward in 2014, 2015 and 2016.

In Troy New York, Former Democratic City Clerk William McNerney, Democratic Councilman John Brown, and Democratic political operatives Anthony Renna and Anthony DeFiglio were caught forging signatures on absentee ballots for the Working Families Party Primary in 2009, all four plead guilty.

In 2016 Project Veritas uncovered that the New York City Democrat election commissioner Alan Schulkin admitted on film “there is a lot of voter fraud”. Democrat Operative Scott Foval admitted they “bus people in”, using fake shell companies, out of state voters are hired just to vote and then paid off through the shell companies.

House Resolution 1 HR-1 transfers authority in how elections are run from the State to the Federal Government. It mandates voter registration for anyone registered at the Department of Motor Vehicles, Public Universities or any social service agency. It also mandates that States comply with these new laws regardless of their state laws. Unmonitored absentee voter drop boxes must be made available 24 hours a day within 45 days prior to federal election, this also allows for curbside voting.

It forces states to redraw congressional district lines to show “racial, ethnic, economic and gender” diversity. It removes any requirements for Voter ID and allows illegal immigrants and felons to vote and allows for ballot harvesting. It limits the ability for lawsuits against HR-1 and recommends statehood for the District of Columbia. It limits free speech against the law and considers it “misleading information”, penalties could be up to 5 years in prison.

It is illegal in the United States for non-citizens to vote in elections, regardless some jurisdictions still allow immigrants to vote. Immigrants are also counted when remapping congressional districts which allows for more electors. These things apply even if they have broken the law. 6.4% of Immigrants voted in the 2008 presidential election according to a 2014 study. The majority of Americans are against non-citizen voting. Voter ID requirements demonstrate identity and citizenship greatly reduce voter fraud.

### -Immigration?

President Trump also says that immigration effects our Mexico border security. Chain migrations including terrorists and gangs come in under failed immigration policies. These groups bring violence, murder and human trafficking as well as weapons and drugs into the country. We need a merit-based system where immigrants come into the country legally and close immigration law loopholes. Increase in fair immigration judges and decrease in backlogs will help it run more efficiently as well as supporting applicants that will respect our laws and institutions. President Trump has also mentioned Sanctuary Cities in areas like Denver or Philadelphia that harbor illegal immigrants and limit local law enforcement in cooperating with Federal Immigration officials on matters, essentially omitting Immigration and Customs Enforcement ICE from the process. He also ended Catch and Release which returned Illegal immigrants to their home countries and worked with Mexico to dismantle human smuggling rings.

Legal and illegal immigration will ultimately shift 26 congressional seats by 2022, pulling them away from mostly red states and redistributing them into blue states like California and New York. Red states with Democratic governors have slowly been taking in refugees to their states. Allowing to beef up their budgets as well as distribute immigrants throughout the country more evenly. Alabama, Arkansas, Georgia, Idaho, Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Utah, West Virginia, Minnesota, Wisconsin and Rhode Island will all lose one seat. Ohio will lose 3 seats, Michigan and Pennsylvania will lose 2 seats. This shift will put a lot more political power into Democratic hands.

### -Drugs?

Under President Trump's administration, the Department of Homeland Security DHS blocked 4 million pounds of hard drugs coming in across the southern border with Mexico in 2017. In FY 2019, US Customs and Border Protection CBP seized 12,466 pounds of opioids and 3,688 pounds of fentanyl. It seized 10kg of heroin and the Department of Justice DOJ dismantled 3000 drug trafficking organizations including major drug indictments of the Chinese, India and Mexico. In 2019, 142,000 pounds of methamphetamine was seized. Since Biden took office the smuggling numbers have dramatically increased as well as the amount of illegal immigrants. Reversal of Trump's policies like Remain in Mexico have caused recent polls to show discontent with the Biden administration.

-Who do you hire for a hit?

MS-13 gang members can be hired as hit men. The Mexican Sinaloa Federation Cartel has members working as foot soldiers in the US. One group operates in Los Angeles, CA and St Paul Minnesota. They also have a large presence in New York, Southern California, Washington DC and Northern Virginia and are reportedly in 46 states with around 50,000 members and are also international. MS-13 is considered a Tier 1 level threat in Texas which is the highest threat level. The gang is so dangerous that their motto is "kill, rape, control" and they have made El Salvador the murder capital of the world. Beheadings with machetes are used often by the gangs as well as stabbings and shootings. There is evidence of former military training through their native countries and links to terrorist groups like Al-Qaeda.

-Who can be eliminated after the job is complete?

Seth Rich. The FBI released documents that may tie Former Secretary of State Hillary Clinton to the Seth Rich murder. July 2018 emails mentioning Special Counsel Robert Mueller and Clinton and both mentioning hiring a hitman and Seth Rich.

In 2016, according to testimony from Silk Road Task Force member Ryan D White which Former Deputy Attorney General Rod Rosenstein was in charge of at that time out of Baltimore Md. Rosenstein's associates Shawn Bridges, Carl M Force IV were caught stealing Bit Coin during a Silk Road case and sent to jail. Rosenstein remained in contact with others involved that were never charged.

Former Deputy Attorney General Rod Rosenstein acquired the help of Drug Enforcement Agent DEA Joseph Rosati and Alcohol Tobacco and Firearms ATF agent Alan L Boroshok to retrieve the thumb drive that Seth Rich always carried with him which contained the DNC emails, in which Wikileaks ultimately posted. DEA Agent Joseph Rosati testifies that he hired the two MS13 agents Rafael Aguilar and Carmelo Marmeljo-Calixto, to rough up Seth Rich and retrieve the USB key. DEA Agent Rosati and former owner of Nexus Consulting Kevin C Doherty met Aguilar and Calixto and brought them to Seth Rich's location. The two MS13 members approached Rich on the night of July 10, 2016, and in a botched robbery of the USB they ended up shooting and eventually killing Rich. DEA Agent Rosati assisted the MS13 members in their escape 434 miles away to Myrtle Beach, South Carolina where he ultimately shot them dead on July 11, 2016.

Ryan D White claims Rosenstein dealt with all of the loose ends with the Seth Rich case and would ultimately sign the illegal FISA warrants meant to take down President Trump in the Russia Spying collusion. This would allow Vice President Pence to take power and for Rosenstein to be named VP.

-Who was found dead (2) shortly after his murder? What affiliation did they have?

Both DNC Staffer Seth Rich and DNC IT Staffer Imran Awan both had inside access to DNC servers. Imram Awan was part of an IT outfit known as the Awan Brothers who were 2 Pakistani Nationals working for the DNC and Chairman Debbie Wasserman Shultz using servers in Pakistan to maintain DNC information.

On July 10, 2016, at approximately 4am, Seth Rich was murdered near his Washington DC home. On July 11, 2016, MS13 Members Rafael Aguilar and Carmelo Marmeljo-Calixto are found murdered with multiple gunshot wounds, 434 miles away in Myrtle Beach. July 22, 2016, Wikileaks begins releasing DNC emails which detail Secretary of State Hillary Clinton and the DNC's effort to shut out Democrat Candidate Bernie Sanders who endorses Hillary Clinton 2 days after Rich's murder. DNC Chairman Debbie Wasserman Shultz resigns over the scandal. July 25, 2016, Imran Awan is arrested for bank fraud charges and cannot leave the country. Both Awan Brothers were detained. In early August of 2016 Julian Assange mentions Rich's murder in an interview about great risks Wikileaks sources take. In the months directly following President Obama, Hillary Clinton, CIA Director John Brennan, DNI James Clapper, House Minority Leader Nancy Pelosi and the Mainstream Media including The Washington Post and New York Times start to spin a DNC Russian election hack story in which a 3rd party contractor CrowdStrike links to the Ukrainian

military which was later debunked. On October 7, 2016, Wikileaks releases the first of the Podesta emails whom Wikileaks associate Craig Murray eventually confirms he received from a source in Washington DC. All throughout members of the Rich family tweet out implications that there is foul play with the DNC. In March of 2017 the Rich family hires DC area detective Ron Wheeler who claims there is evidence Seth Rich was emailing Wikileaks and there may be a connection to Imran Awan.

2016- Five Pakistani DNC IT staffers with no clearance, 3 brothers Imran Awan, his wife Hina Alvi, Abid and Jamal Awan and friend Rao Abbas all had access to congressional servers and It equipment at the They started getting noticed when a computer equipment request showed \$120,000 missing. Then Imram Awan is arrested and ultimately indicted for Bank Fraud while trying to leave the country and wiring \$165000 at the same time. His wife Hina was allowed to leave the country. When searching his home, the FBI seized computers and found smashed hard drives. The indictment indicated, “Defendants AWAN and ALVI did unlawfully, willfully, and knowingly conspire, combine, confederate, and agree with each other to commit offenses against the United States,” regarding bank fraud, false statements and unlawful bank transactions. These individuals all worked for Debbie Wasserman Schultz who continued to double talk and defend them after being caught and even gave Imran Awan another position with the House doing various office jobs for staff.

The events let to a House investigation and House’s Office of the Inspector General report indicated the Democrats were careless and to inform the constituents of the breach. There were also indications of nefarious purposes and elevated risk that information/documents were read, stored or removed. Lawmakers have expressed their concerns over Wasserman-Schultz Awan even after the indictment. Frontpage Magazine did an exclusive report that links the Awan Brothers to the Muslim Brotherhood and Imran Awan also has ties to Intelligence through his father Haji Ashraf who was the head of a Pakistani Intelligence agency.

On October 28, 2016, FBI Director James Comey notifies congressional leaders of the emails leaked from Secretary Clintons personal server and that the FBI will review for classified information. And on Jan 10, 2017, he informs the Senate committee publicly of the DNC Russian Hack and how they never inspected the devices they instead used Crowdstrike. In March of 2017 he along with NSA Director Rogers appears before the House Intelligence Committee confirming again, they never had access to the physical machines but relied on Crowdstrike. President Trump fired Comey on May 9, 2017, for mishandling the email and Russian hack controversy.

## Woods Procedures:

On Sept 30, 2021, “Execution of it’s Woods Procedures for Applications Filed with the Foreign Intelligence Surveillance Court Relating to US Persons” Report was released by DOJ Inspector General Michael Horowitz. FISC allows the government to spy on others using the Foreign Intelligence Surveillance Application FISA. Once applied for it’s not usually subject to any scrutiny in subsequent proceedings, because of this the DOJ/FBI have duty to maintain integrity in the process including supplying all material facts and to correct and misstatements or omissions of facts. According to Rule 13 these must be made in writing and immediately inform the original presiding Judge. This also includes corrections/modifications and steps to correct and disclosure of non-compliance. All must include in writing to the original Judge, steps to correct any and all issues.

This report focuses on the Woods Procedures, which is a process that minimizes factual inaccuracies in FISA applications. All statements must be scrupulously accurate before presenting the application to the presiding Judge. The latest sample audit by IG Horowitz included 29 FISA applications. Numerous instances on non-compliance were found using the Woods Procedures in 25 of the files and of the remaining 4 files, the FBI could not supply the original versions. The same 29 files showed over 400 instances of non-compliances with Woods Procedures and between Jan 2015 and Mar 2020 another 7000 applications had 179 missing required Woods Files. They also found inaccurate and missing information as well as the information needed to support statements in the documents, instead saying the target supported a specific cause. IG Horowitz’s Dec 2019 report on Carter Page’s FISA application showed substantial issues and misconduct as well and even recommended remedial measures to correct the issues created by the FBI.

## The Four 2016 FISA Applications:

Paul Manafort

George Papadopoulos

Carter Page

General Michael Flynn

## Crossfire Hurricane:

The Obama administration conspired to spy against President Trump using UK MI5/6/SIS, Five Eyes, Israeli NSO Pegasus Surveillance and FISC to obtain permission. They were also spying on Senator Cruz's presidential campaign.

Queen Elizabeth II in the UK was using Israeli NSO Pegasus to spy on everyone, she called all the shots through Obama's administration. The exchange of classified information flowed freely with or without the use of FVEY. On the 2016 election night 7 people, Barack Obama, Hillary Clinton, James Comey, Susan Rice, John Podesta, Chuck Schumer and Adam Schiff flew to London to have a private secret society meeting with Angela Merkel, Jacob Wallenberg and Queen Elizabeth II. The meeting was to discuss how to remove Donald Trump from the US Presidency using the one of their ships that have shipping container missile systems and they discussed how to keep their worldwide trafficking scheme quiet.Q2658/Q4556

They lied on the applications. Germany helped build the Steele Dossier. The Dossier was paid for by former Secretary of State Hillary Clinton, who held RR/Rockets/Missiles against people get it done. It was another set up to take down President Trump. They could not lose control or allow their treason or satanic pedo acts come out. They wanted to rig the election. Senator John McCain and Senator Lindsey Graham pushed it because they are part of the Deep State and every media outlet who reported the false information was sharing a hoax. BuzzFeed News, along with the Soros funded International Consortium of Investigative Journalists (ICIJ). MSM heads conspired with Dems to help push Fake Russia narrative.

Fusion GPS had Perkins Coie Michael Sussman, paid by Hillary Clinton, and a secret DNC committee with Chair Debbie Wasserman Schultz, CEO Amy Dacey and Mr Brown push the Russian narrative that President Trump was communicating with a Russian Alfa Bank server in March of 2016. Mr. Sussman's Sept 16, 2021 indictment reveals in section 7. "The FBI's investigation of these allegations nevertheless concluded that there was insufficient evidence to support the allegations of a secret communications channel with Russian Bank-1. In particular, and among other things, the FBI's investigation revealed that the email server at issue was not owned or operated by the Trump Organization but, rather, had been administered by a mass marketing email company that sent advertisements for Trump hotels and hundreds of other clients." They knew the information was false before they pushed it out to the media yet did it anyway.

In 2016, Barrack Obama and FBI Director James Comey told Deputy Director Andrew McCabe and Deputy Attorney General Rod Rosenstein to approve the fraudulent FISA

applications for Trump's aid Carter Page, this allowed Obama to spy on Trump. Obama then pushed the Steele Dossier, supported by the FBI and Director of Counterintelligence Bill Preistap, and that Hillary Clinton paid for claiming Russian Election interference. Director of National Intelligence James Clapper tried to get the Supreme Court to invalidate Trump's presidency while Fusion GPS agent Natalia Veselnitskaya set up Trump's Campaign Manager Paul Manafort for the Trump Tower events regarding Donald Trump Jr and Jared Kushner and then FBI Deputy Asst. Manafort was a deep state plant, he was deeply in debt to Russian oligarch Oleg Deripaska, so they gave him a way out by setting up President Trump.

Former FBI Special Agent Peter Strzok & Deputy/Acting Attorney General Sally Yates went after Trump's National Security Advisor General Flynn. Obama used UK MI5/6/SIS, Five Eyes, Israeli NSO Pegasus Surveillance and FISC to obtain permission. Also assisting were German PM Angela Merkel, UK PM May and CIA Director Gina Haspel, who was the prior CIA UK Station Chief. Obama also used Senators Warner, Cardin and Corker as well as the State Department.

Under FISA UK assist, the surveillance allowed for a '2 hop' rule. Since Carter Page was the target in the original application for Russian spying, the FBI was then able to spy on anyone Page was in contact with and anyone the next person was in contact with. This included President Trump, NSA Director General Flynn, Trump's campaign manager Paul Manafort, Trump's campaign advisor George Papadopoulos, and Senator Ted Cruz. The original application was dated April 1, 2016, 11 days before Carter Page joined the Trump campaign on March 21, 2016, and 10 days after the Buryakov press release identified Page as the Russian agent on March 11, 2016. The FBI used this same application plus 3 renewal applications as their basis for the Dossier and then ultimately the Special Counsel Robert Mueller investigation. This throws off the timeline and shows that Obama's intel team was spying on President Trump and Senator Cruz long before Carter Page was involved and likely earlier during the presidential campaign.

CIA Director John Brennan and Peter Strzok used an Intelligence Community Assessment ICA with the Dossier added to it while Strzok's wife Melissa Hodgman was hiding Hillary's email evidence. Hiding Hillary's evidence was also the reason of former President Bill Clinton and Attorney General Loretta Lynch's Tarmac meeting in June of 2016. As an exchange, Lynch was promised a Supreme Court appointment once Justice Ginsberg stepped down.

National Security Advisor Susan Rice unmasked Flynn's meeting with Russian Ambassador Sergei Kislyak, with help from the Washington Post reporter Adam Entous, who leaked it from a source that saw it in a Palpatine's Revenge game chat log discussion. As early as November 2016, unmasking requests to the NSA were made by 16 people including US Ambassador to the UN Samantha Power, DNI James Clapper and then Vice President Joe Biden made a few of the requests. This was before the actual Flynn/Kislyak phone call on Dec 29, 2017, proving a set up occurred beforehand. Approved by Rice in 2017 under Obama's guidance and Russian interference Executive Order, in a purely political move.

During this timeframe, Strzok's FBI interview with Flynn on January 24, 2017, forcing Flynn to later plead guilty and be fired about lying to Vice President Pence. Strzok also withheld exculpatory evidence of handwritten notes taken by him, DOJ official Tashina Gauhar and FBI Lawyer Dana Boente, during and after the meeting with Flynn that found that he had not engaged in any wrongdoing. The FBI kept the case open regardless to pursue Joe Biden's suggested idea to prosecute him under the Logan Act which didn't apply either.

Trump's campaign advisor George Papadopoulos and Australian Ambassador Downer were spied on by Strzok in London and this was used to set up the Robert Mueller investigation and the 2019 impeachment of Trump.

Strzok and FBI General Counsel Lisa Page's texts revealed Obama's involvement and plan to take down Trump and hide Hillary's crimes, including crimes against children. Brennan's CIA spied on FISA court head Chief Justice Roberts who was likely blackmailed into all FISA investigations including Flynn's, who was ultimately pardoned by the President. The Illuminati Cabal and Hillary held CIA spying info and RR/Rockets/Missiles from her armada of ships, against people get it done.

On November 22, 2017, Attorney General Jeff Sessions appointed US Attorney for Utah John Huber directing him to investigate Hillary Clinton and claims of FBI and DOJ misconduct, which didn't amount to much so in May 2019 Attorney General Barr assigned a special counsel to John Durham who is known for successfully prosecuting mobsters like the Gambino, Genovese and Patriarca. He also was tasked to go after Boston corruption and in 2005 he investigated the CIA for destruction of videotapes regarding 9/11 interrogation something that former CIA Director Gina Haspel also did at the CIA black site in Thailand. He is in charge of investigating the Deep State corruption that occurred during FISA as well as other crimes. But it's been delayed because of the RR/CME/Missiles threat to the world.

Most of the information discovered here was received from the Inspector General Michael Horowitz report on FISA released on December 9, 2019, but the IG concluded that the DOJ and FBI largely complied with policies. Both Barr and Durham publicly commented that they disagree with the conclusion of the report. A likely conclusion if the threat of RR/CME/Missiles were known.
